News and Notes brought
to agents exclusively from

Fast 5 on Friday

1. In 2017, there will be an estimated 1,688,920 new Cancer cases diagnosed and 600,920 Cancer deaths in the U.S. according to the American Cancer Society. While health insurance and Medicare plans cover the costs of Cancer, there are significant out of pocket costs due to the price of treatments like radiation and chemotherapy. That's why my favorite Cancer product covers actual charges of treatments. Send a note to the **Fast 5** inbox for more information on this great product!
2. What would Medicare Advantage for all look like? Well according to a columnist from the [Health Affairs blog](#), it may end up being a good option. We are one of the leading FMO's in distributing Medicare Advantage plans nationwide. If you are selling Medicare plans to those over 65, send a note to the **Fast 5** inbox and we have great options for you to sell.
3. We know from articles like [this](#) that sports injuries are an increasing problem as kids are bigger, faster, and stronger than ever before. The problem is that with the high deductibles that most health plans have, a single injury could cost a family thousands which many cannot afford. However, there is a brand new Accident plan that is specifically designed to protect kids and their families from an unexpected accident starting at only \$14 per month. Plus, it is available in all 50 states! Send a note to the **Fast 5** inbox for more details.
4. If you have not yet figured out to how to use Social Networking to market your business, stay tuned for an exciting upcoming event. It's the wave of the future (and today) and agents need to get on board. Check out the NALP [Facebook](#) page!
5. Another need for all Americans is coverage for Dental, Vision, and Hearing. The one I like provides a "Pool of Money" to help cover dental and/or vision and/or hearing costs. Individual DVH products can also make you a lot of money with strong commissions and strong consumer demand. Send a note to the **Fast 5** inbox to get more information. Plus, it can be sold in both the Under 65 as well as the 65+ market.
